Re: Virtual and in-person listening sessions
Date: June 20, 2016

The Family and Social Services Administration's Indiana's Division of Aging is hosting a series of virtual and in-person listening sessions in June and July, 2016. These listening sessions are designed to gather input on how the state delivers home and community-based services (HCBS) to older adults and to adults with physical disabilities and/or traumatic brain injuries.

Building upon the feedback we received from the 2015 listening sessions, which were focused on the No Wrong Door system functions and access to HCBS, this year's listening sessions will focus specifically on service delivery.

There will be eight in-person listening sessions for people using services, their family members, guardians and/or caregivers. There will also be three virtual listening sessions, one each for case managers, assisted living providers and HCBS providers. Please see the listening session schedule below:

In-Person Listening Sessions for people using services, their family members, guardians and/or caregivers			
Date	Location	Audience	Time
